

COMPANY PROFILE

DÜCHTING.SYSTEMS at a glance

Specialist in controlled modernization of business-critical legacy and custom software.

Focus

•	VB5 and VB6
•	VB.NET and modern .NET
•	SQL Server
•	Data migration and interfaces
•	Technical assessments
•	Modernization roadmaps
•	Program support and knowledge transfer

Working model

Personal accountability through Stefan H. Düchting, supported when required by a trusted network of experienced software developers.

Methodology

DISCOVER → ASSESS → PLAN → MODERNIZE → VALIDATE → SUPPORT

Principle

Preserve proven business logic. Reduce technical risk with control.

NEXT STEP

Start the Software Health Assessment or arrange a free, non-binding initial conversation.
